Annie S. Koo

Senior Product Designer

anniekoo.com | annie.sh.park@gmail.com | Irvine, CA

EDUCATION

University of California, San Diego | B.S. in Cognitive Science, Human Computer Interaction 2017

EXPERIENCE

Senior Product Designer | Pens.com (B2B/B2C E-Commerce) | Remote July 2020 to February 2025

- Designed a sticky checkout CTA bar for the microsite and partnered with the experimentation manager and web developer on an A/B test that drove a 13.24% transaction rate lift and about $15K in added revenue in the US in 12 days, then rolled out globally
- Mapped the full purchase funnel with Hotjar, UserTesting, NN/g heuristics, and Baymard research to find drop-off points, then prioritized the backlog with an impact effort matrix
- Aligned 3 payment portals and the main site checkout on shared components with 2 PMs and an engineer, so one update applies across all four surfaces (team measured a statistically significant 4.6% conversion rate lift after I left)
- Redesigned product detail and list pages across mobile, tablet, and desktop to strengthen add to cart journeys
- Unified fragmented US and international experiences into a single UI system, building and documenting reusable Figma components, variants, and tokens
- Reworked the customer live chat entry point after categorizing negative Hotjar feedback, shipping quick wins with a PM, engineer, and the Content team
- Established the UX practice as first UX hire, setting up research and critique and onboarding 3 designers

Senior Product Designer, Growth | LawnStarter (SaaS) | Remote February 2025 to May 2025

- Embedded on a new Growth team with Product, Engineering, SEO, and Marketing to improve new customer acquisition across landing pages and signup flows for LawnStarter, Lawn Love, and Home Gnome
- Ran an acquisition and heuristic audit using Hotjar and stakeholder interviews, surfacing 44+ UX opportunities prioritized by severity and business impact to shape growth tests
- Presented findings to Growth and Product, turning opportunities into A/B test ideas and Figma prototypes

Product Designer | Events.com (B2B/B2C SaaS) | San Diego, CA December 2017 to July 2020

- Owned a new self service onboarding experience with in product walkthroughs that guided organizers through multi step setup, reducing reliance on Customer Success
- Recruited and moderated interviews and usability sessions with organizers, turning feedback into requirements
- Delivered end to end ticketing experiences, from organizer dashboards to attendee discovery and registration

ADDITIONAL EXPERIENCE

Design & Growth Strategist | Acts2 Network (University Org) | Taipei, Taiwan June 2025 to July 2026

- Built an organic Instagram strategy across multiple Taipei universities, driving 185% growth in reach, 900+ new followers, and 242% more profile visits in 8 months
- Shipped Irvine HQ (anniekoo.com/irvine-hq.html), a planning dashboard, moving from wireframe to hi-fi direction in Claude Design to a live build in Claude Code

Umami | Self-Directed iOS Concept 2026

- Crafted the visual system and iOS interaction model for a recipe app, applying native patterns like bottom sheets and full screen modals (anniekoo.com/umami.html)

Earlier: Visual Design Lead, Acts2 Network (2018 to 2021) · UI/UX Design Intern, Lytx (2016) · Web Designer, UCSD (2015 to 2016)
