

ANNIE S. KOO

Senior Product Designer

anniekoo.com | annie.sh.park@gmail.com | Irvine, CA (Relocating July 2026)

SUMMARY

Senior Product Designer with 8+ years of experience across SaaS, e-commerce, and growth-stage products. Skilled at simplifying complex workflows, designing scalable systems, and partnering with product, engineering, and research to deliver measurable business and user impact. Recent work includes a 17.47% increase in transactions at Pens.com, 44+ prioritized UX opportunities at LawnStarter, and AI-assisted strategy work using Perplexity and Claude.

SKILLS

- Design & Strategy: Product Design, UX Strategy, Interaction Design, Complex Workflows, Design Systems, Growth Design
- Research & Execution: User Research, Usability Testing, Heuristic Evaluation, A/B Testing, User Flows, Information Architecture
- Tools & Collaboration: Figma, Prototyping, Logic Documentation, Cross-Functional Collaboration, Stakeholder Communication, Accessibility, Prompt Engineering

EXPERIENCE

Design & Growth Strategist (1 Year Contract) | Acts2 Network | Taipei, Taiwan | June 2025 - July 2026

- Led growth strategy and digital execution for a university community initiative, partnering with a 10-person cross-functional team to improve engagement.
- Drove 185% growth in reach, 900+ new followers, and 242% more profile visits in 8 months through content experiments.
- Used AI to accelerate content strategy and copy development while mentoring 10+ students and incorporating feedback into community initiatives and experiences.

Senior Product Designer | LawnStarter (SaaS startup) | Remote | February 2025 - May 2025

- Delivered high-fidelity prototypes, wireframes, and user flows in Figma to improve customer-facing experiences during a rapid 90-day engagement.
- Conducted a heuristic audit and prioritized 44+ UX opportunities based on usability issues and estimated business impact.
- Evaluated high-intent landing pages to reduce friction and clarify user pathways at critical entry points.
- Created annotated prototypes and logic documentation to support alignment across product and engineering teams.

Senior Product Designer | Pens.com (eCommerce) | Remote | July 2020 - February 2025

- Optimized the global checkout funnel, increasing transaction volume by 17.47% and recovering \$15k in revenue within 12 days through rapid A/B testing.

- Consolidated fragmented US and international platforms into a single, scalable modular UI system.
- Designed site-wide UX improvements across the e-commerce platform, improving navigation, product discovery, and user engagement.
- Validated UX naming and hierarchy through qualitative research, improving clarity and supporting better user selection.
- Established UX design processes, conducting heuristic audits and behavioral analysis to help scale the design practice as the first UX hire.

Product Designer | Events.com (SaaS startup) | San Diego, CA | December 2017 - July 2020

- Designed end-to-end SaaS experiences across research, wireframes, user flows, information architecture, and prototyping for an event management platform.
- Led UX strategy for a self-service onboarding experience, simplifying operational workflows for independent users.
- Helped architect an analytics framework that translated complex financial and traffic data into clearer, more usable decision-making experiences.
- Partnered with product, development, QA, and customer success to move work from discovery through implementation.
- Managed design-to-development collaboration through story writing, epic management, and usability-informed prioritization in Jira

UI/UX Design Intern | Lytx, Inc. | San Diego, CA | June - August 2016

- Analyzed and redesigned SaaS software elements for commercial fleet safety coaches, prototyping an onboarding solution.
- Collaborated with engineers to create a high-fidelity prototype of a standalone DVR application using Sketch and InVision.

Visual Design Lead | Acts2 Network | San Diego, CA | September 2018 - April 2021

- Led and mentored a team of 7 designers creating marketing materials and digital content for organizational initiatives.
- Developed branding for a key organizational subgroup through ideation and cross-functional collaboration.
- Contributed to design and development of a large-scale web initiative alongside project managers and artists.
- Managed team workflow and project delivery in Asana to ensure timely asset production.

Web Designer | University of California, San Diego | June 2015 - June 2016

- Designed research-driven websites using user interviews and card sorting to optimize information architecture and usability.

EDUCATION

University of California, San Diego | B.S.in Cognitive Science, Human Computer Interaction
